Each professional lab notebook is available in a range of configurations to meet the requirements of any individual laboratory, engineering department, or research facility. [KNOW MORE](#)

Scientific Lab Notebook | Scientific Notebook Company

A laboratory notebook (colloq. lab notebook or lab book) is a primary record of research. Researchers use a lab notebook to document their hypotheses, experiments and initial analysis or interpretation of these experiments. The notebook serves as an organizational tool, a memory aid, and can also have a role in protecting any intellectual property that comes from the research.

Lab notebook - Wikipedia

A lab notebook is a complete record of procedures (the actions you take), the reagents you use, the observations you make (these are the data), and the relevant thought processes that would enable another scientist to reproduce your observations.

Keeping a Lab Notebook - National Institutes of Health

Introducing the Electronic Lab Notebook (ELN) ELN stands for Electronic Laboratory Notebook, but it spans far beyond just a replacement for paper. It brings forth systematical, safe, and efficient data storage along with interoperable data distribution. The majority of the recently-developed ELNs are set up as cloud-based software (like Dropbox).

Simply print out and paste the template into your lab notebook and then add specific details that would vary from experiment to experiment to the template (e.g. sample names, calculations). Share templates and common protocols (e.g. buffer recipes, blank results tables) with other lab members to help everyone save time and increase consistency within the lab.

How to Organize Your Lab Notebooks, References and Protocols

LabArchives is a cloud-based software application (Software-as-a-Service) which replaces the traditional paper notebook in professional research labs and higher education laboratory courses. The LabArchives ELN (Electronic Lab Notebook) solution is used by more than 100,000 scientists and

professors, including Nobel laureates, to store, organize, share, and publish their laboratory data.

LabArchives - Better Science

Lab notebooks are a way for researchers to remember vital information about their research through an organised and systematic manner. They may be considered part of your research data and will need to be archived along with your other data.

Electronic Laboratory Notebooks (ELN) | Research and ...

Typically, the laboratory notebook should stay in the laboratory where the experiments were conducted (i.e., with your mentor or employer). If you can't part with it, make yourself a copy. Digital cameras with wifi (or Eye-Fi cards) are really cheap, so if you do expensive, important science I recommend that you have one camera per project.
