This is the first book to teach the basic methods of proof and problem solving in General Equilibrium Theory at graduate level. The problems cover the entire spectrum of difficulty: some are routine, while others require a good grasp of the material involved, and some are even challenging.

**Problems in Equilibrium Theory: 9783540607533: Economics ...**  
The foundation of economics is the economizing problem: society's material wants are unlimited while resources are limited or scarce. Unlimited wants (the first fundamental fact): Economic wants are desires of people to use goods and services that provide utility, which means satisfaction.

**Second edition - International Growth Centre**  
Dornbusch, Fischer, and Startz has been a long-standing, leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the text's traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition.
