and more recently by 3D printers (in a very basic form).

## **CNC G Codes - GCodeTutor**

What is G-Code? G-code is a programming language for CNC that instructs machines where and how to move. Most machines speak a different "dialect" of g-code, so the codes vary depending on type, make, and model. Each machine comes with an instruction manual that shows that particular machine's code for a specific function.
