## Tractor/Truck Pulling Fails/Breakage Compilation 2019 ...

Tractor pulling is a competitive motor sport in which modified farm tractors drag a metal sled along a prescribed course. The sled contains a heavy load of metal plates that are mechanically winched forward as the sled progresses along the course. Tractors pulling this ever-increasing load eventually lose forward momentum and torque, although a rare few might indeed reach the end of the course.

## What is Tractor Pulling? (with pictures)

Watch entertaining tractor pull videos. See modified and hybrid tractors pull heavy sleds as far as possible in competitive tractor pulls at farm shows and other events. These tractors have very high horsepower, but due to the weight transfer sled, the farther the tractors pull, the more difficult the challenge becomes.

Modern tractors are much more sophisticated than traction engines and they can do all kinds of things, although their main job is still to pull things. Tractors can pull or power implements (farm machines such as plows, trailers, hay balers, manure spreaders, and so on) in three different ways: using a simple drawbar, with a much more ...
